Average Verification – It shall be each bowler’s responsibility to verify the accuracy of there average, whether originally submitted by the bowler or others. Failure to use the proper average shall DISQUALIFY score if submitted average is lower than actual average. Prize will be based on submitted average if it is higher.

Highest previous season average used for handicap. The 10 pins Rule applies if your current seasons average 10 pins higher then that will be used to calculate handicap.

If you were re-rated in last 12 months, you must notify the tournament director before bowling.

You must report highest average from any organized league for consideration in re-rating

The tournament management reserves the right to adjust or refuse any average based on these or other pertinent facts.

Failure to comply with average adjustment or re-rating rules could cause disqualification.

140 average and below will receive the maximum handicap of 380 pins for the 5 games
